## About Me

I am a passionate Software Engineer. I enjoy creating innovative solutions and developing applications that make a difference. My work includes full-stack development and AI-based systems. I take pride in my skills and always aim for high-quality results.

## Experience

Freelancer – SEO & Business Listings Specialist | Remote | Oct

- Managed local SEO campaigns focused on Top 3 Google Map rankings.
- Added and optimized listings on Google My Business, classifieds, and event platforms.
- Built custom signals, created and submitted PDFs, articles, and images to authority sites.
- Conducted NAP audits, citation building, and schema setup.
- Improved SEO performance for 30+ clients with detailed monthly reports.

Intern – Unity Game Developer | Blurred Ego Software House, Lahore | May 2024

- Developed basic game mechanics using Unity Engine (C#).
- Assisted in creating 2D/3D gameplay and UI components.
- Worked with Unity Editor, physics, animation, and debugging.
- Collaborated on prototyping and testing using Agile methods.
